

Let me inform you that the German Courses are being held all year long. You can sign up for a German Course according to your language level at any time, as long as you're not an absolute beginner.

For beginners we offer German Beginner-Courses, which start every month.

Register in a German Course that suits your language proficiency level. If you're not certain which course level fits your German language skills best, then take the opportunity to participate in a free trail lesson in one of our German Courses.

You can switch to another **German Course anytime**.
